

REPRESENTATIONS, UNDERTAKING AND ASSIGNMENT (Programmer)

“.....” (*corporate name*)
REPRESENTATIONS, UNDERTAKING AND ASSIGNMENT
of (*name of employee*)

RECITALS

The undersigned acknowledges that he is the employee of (*designation of the company*) and that, in this quality, he has access to scientific, technical, commercial, and financial information belonging to the latter or its clientele.

The undersigned further acknowledges that he may be called upon to effect, on behalf of (*corporate name*), works that may generate intellectual or industrial property.

In consideration of the foregoing, the undersigned represents and agrees as follows:

1.00

ACKNOWLEDGEMENT, ASSIGNMENT AND WAIVER

The undersigned acknowledges that all the intellectual and industrial property that it develops and acquires during his employment belongs to (*corporate name*) or, as the case may be, to the assignee of the latter.

Consequently, the undersigned undertakes, where said assignment may be required by law to operate the transfer of property in any work that he may create during the term of his employment even if a part of said work is performed outside work hours, to assign any intellectual or industrial property right relating thereto to (*corporate name*) or, as the case may be, to any assignee of the latter. To do so, the undersigned undertakes to pose any useful or necessary act in order to give full effect to the present assignment; namely, the undersigned undertakes to sign any document necessary or useful for the establishment, preservation or publicity of the rights assigned herein.

In addition to this undertaking, the undersigned acknowledges that he does not acquire any property right whatsoever in any work that it creates in the course of his employment and, if need be, he waives, in favour of (*corporate name*), any right to which he claims having on said work.

2.00

CONFIDENTIALITY

For the purposes of this undertaking, the word “Confidential Information” means any information the disclosure of which may cause harm to (*corporate name*), but does not include information that:
